

LASER CUTTING

AMADA FIBRA VENTIS 3015AJ

TECHNICAL SHEETS

Laser power

6000 W

Operating range

3070 x 1550 mm

Working thicknesses

0,5 – 25,00 mm

Applications

**Copper; brass;
titanium; carbon stell**

AMADA FIBRA VENTIS 3015AJ is equipped with an automatic raw material loading system through the **AMADA ASF II 3015 EU** tower. Furthermore, it features the **TK II 3015 EU** unloading system, which allows for the automatic retrieval, sorting, and stacking of laser-cut parts, as well as the unloading of scrap through the tower solution.
